

INDIAN ESSENCE

WINE LIST

Our wine philosophy in terms of style and structure is simple, wines that are true to their nature and that complement our style of food.

"The Great Recession downsized bloated library-style wine cellars and ushered in an era of concise, pared-down lists. At the same time, importers and sommeliers have championed the value of hidden regions and grape varieties. This has brought a kaleidoscopic swath of options to the market, the range of which diners have now come to expect—and seek out—when ordering wine."

Keeping things unintimidating and light, even in the face of a more challenging and esoteric list, seems to be a touchstone of the modern wine-list experience—and this brand of approachable service softens the edge of an offbeat list.

"People come in wanting to have the experience rather than create the experience for themselves," she says. "They surrender themselves to the adventure of what it is that you want. They want your point of view."

We have taken pleasure in studying the balance on spices, flavours & aromas to perfectly pair with 50 wines from the menu
